Dr. Wayne F. Gersen

The replacement of the Woodstock Elementary School buildings has been a topic of discussion in S.A.D. 44 for at least ten years. The existing Woodstock School complex, located on a site, just over one acre, in Bryant Pond, consists of a three-story wood framed building with eleven classrooms; a separate gymnasium; and a small, two-room annex. Of these existing facilities, only eight of the classrooms in the main building are used on a day-to-day basis. The annex closed at the end of the 1980 school year, and the gym is used only for physical education classes and special events. On Wednesday, July 14, S.A.D. 44 will present the State Board of continued on Page Four

BETHEL HISTORICAL SOCIETY

MEMBERS ENJOY VISIT WITH WATERFORD SOCIETY

Approximately 35 members and guests of the Bethel Historical Society traveled to North Waterford to attend a joint meeting of the Bethel and Waterford Historical Societies on Thursday, July 1.

Margaret Sawyer, treasurer of the Waterford Society, greeted the Bethel group and welcomed them to the headquarters of the Waterford Historical Society, the former Odd Fellows Hall. Mrs. Sawyer provided a brief history of the Waterford Society following a picnic lunch which was highlighted by fresh pies furnished by the host group. In her talk Mrs. Sawyer traced the development of the Society beginning in 1963 to its present state where it also owns the Mary Gage Rice Museum in Waterford Flat. It has also published a bi-centennial history (1976) as well as recently reprinted the centennial history that first appeared in 1875. Following Mrs. Sawyer's presentation, Bethel Historical Society members and guests were treated to a tour of the exhibits in the North Waterford building as well as an opportunity to visit the Mary Gage Rice museum in Waterford Flat. Last summer the Bethel Historical Society hosted the Waterford group on the lawn of the Moses Mason House.

The Field Day is jointly sponsored by the Boise Cascade Tree Farm Family Program, the Oxford County Extension Service and the Western Maine Chapter of the Small Woodlot Owners Association (SWOAM).

Two concurrent tours will begin at 10 a. m. One group will go to Tree Farm #796 owned by Dr. James Hudson while the other group visits the P. H. Chadbourne sawmill. Following lunch (bring your own) outside on the grass, weather permitting, at Telstar Regional High School, the tours will be repeated with the morning woods tour group going to the saw mill and the mill group going into the woods.

The Tree Farm tour will feature white pine management, on the Dr. Hudson property. A skidder logging operation will be in progress. Specialists will be present to cover many aspects of woodlot management including: soils as they relate to tree growth, insects, diseases, weeding, thinning, pruning and multiple use.

The P. H. Chadbourne mill is the most advanced computer-operated sawmill in Maine, according to an article in the April 1980 Northern Logger magazine. It features a double-edge band saw and a German-made water tube boiler which burns unhogged wet bark and other wood waste to produce steam for mill requirements. It is adaptable to future production of electricity. The P. H. Chadbourne Co. Tree Farm #359 encompassing some 38,000 acres was chosen as Maine's outstanding Tree Farm in 1975.

The subject of cable TV continues to be a topic of lively interest both in conversation and as an area of work before the Planning Board. Readers will recall that on April 26 the Board of Selectmen discussed a proposal for cable television for Bethel residents and authorized a review of the proposal by the Planning Board with the following change: 1. Determine the Town's responsibility in establishing and maintaining cable TV and the correct process for its implementation; 2. Determine the cable TV company's responsibilities and its ability to honor them; 3. Examine all costs that would accrue to the Town and the customers; 4. Evaluate all aspects of a franchise.

The Planning Board has boiled down the effort on-step one into a draft ordinance that will provide a solid frame reference for dealings on a continuing basis between the Town, acting in behalf of potential cable TV patrons, and possible cable TV vendors. Areas addressed in the ordinance draft are regulation of the public roads for the purpose of carrying transmission wires, franchise terms such as contract renewal periods and baseline operating standards and vendor bonding requirements that would insure customers against non-delivery of service. Since the ordinance deals with the use of public ways to conduct business, the Board of Selectmen, which has continued on Page Eight

RAIN DATE SUNDAY

Local Paddlers to Be in Third Annual Canoe Race July 11

In addition to the Haines team mentioned in last week's article, some other local people are expected to enter the Androscoggin River Canoe Race Sunday, July 11. Warren "Sonny" Hastings and Tim Carter are going to paddle a dayryman's express in the master's class. They will both be wearing hats saying "Milk is the Fresher Refresher." Keith Bartlett and John Gasser are planning to paddle either in the old man's class with Sonny and Tim or in the recreational beginners class. The Kelly boys who won this year's Pole, Paddle and Paw may be back at it again in this race. Tom Buckman and Bradley Gaudreau say if they can get a day off from haying to practice, they would like to try it. Hopefully, the local Outward Bound School will enter a team or two in one class or another. Jim Sysko hasn't said anything yet but has been a competitor in the past. It would be great if all these people and even more show up for the race.

The "A.M.C. River Guide" describes this section of the Androscoggin as a truly beautiful stretch of river. It then goes on to complain about the pollution since it was written some years ago. But, now that quality of water in the river has improved, it really is an enjoyable river to paddle or race. If you have a canoe come enter the race or just paddle down and watch the racers go by. If you don't have a canoe you can rent one from Denison's or Tim Carter. You can get information and entry forms from Tim Carter. There will be some entry forms left at Edelweiss Country Store.

With nine different classes and awards for the paddlers of the first three canoes in each class several people will be taking home trophies. The trophies are very unique in that they are pottery mugs made by Fay Corrin of Bryant Pond. Hopefully there will be a lot of people and canoes on the big river this Sunday.

The race begins at Twin Oaks Camping Area, Bethel, at 11 a. m. and will end at the Madison Motel in Rumford.

Other guests were Harold Canwell, Barbara Felt, Sam and Clara Soucy, Ester Crooker from Franklin and Oxford Granges and the Grange baby, Hannah.

Friends of Beverly Cameron helped celebrate her birthday on Tuesday. She received gifts and cards. The cake was decorated with home made candy butterflies. Beverly's father, Bill Adams, and the Glover boys also had lunch with us.

North Paris

Eveline B. Valcher, Corres.

It looks like a promising holiday week end as I sit here on July 3 to jot a few news items and it is about time that we have a bit of sunshine for an outing or whatever we can, think up. Rain has made the grass grow so everyone should get a bumper crop of hay. We have a bit of work to do, as the man with the septic tank told us this morning that he would be here Tuesday early to begin the work for a new and bigger septic tank. We will roll up the fences, take down the clothes lines after the wash is dry and try to be ready.

Schools are closed for the summer vacation and everyone should drive carefully. Sometimes children are like the hens, they want to cross over.

Arnold Coffin has finally reached Maine after selling his home in Paramus, N. J. Malcolm Billings of Bryant Pond drove Mr. Cooper's trailer truck as Charles Coffin didn't have a P.U.C. plate for New Jersey. They got here Wednesday at 9 p. m. and Arnold and Doris Lawrence got here at 6:30 a. m. Thursday, so we all helped unload the trailer Thursday evening and Doris spent the night here to help make up the beds, etc. Who likes to move?

Jackie Stevens is on vacation from the Paris Mfg. Co. and she and her husband Herbert will leave July 6, on a motor trip to Pennsylvania. I hope the sun will shine a bit for them and others who will be enjoying "time off".

The Vatchers have a new bossy born, July 2. It is Guernsey with a white face like the mother. Later they will be put in the freezer.

Many in our Hamlet have been strawberrying, both wild and cultivated, and they sure make good eating. Harlan Abbott has been a busy man. He has laid a new living room floor, with a bit of help from Joe Vatcher and has had a general good time doing lots of odd jobs and he has made donuts a few times. A change of work is good for anyone.

Many trailers and cars with boats, and whatever have gone by here, so everyone must be celebrating the long week end.

Mr. and Mrs. Joe Reidy of Tynsboro, Mass. are at their trailer and several members of their family are with them. The kids love it here.

Frank Knox and Dale Buck have finished work for Olive Davis this week.

South Woodstock - T.T.A.E.R.S. News

Olive Davis, Corres.

The Willing Workers had their family pot-luck supper Monday evening, June 27. Mr. and Mrs. Maynard Fleming were honored for their 47th wedding anniversary which fell on the 26. They were presented with a corsage and boutonniere and a beautiful wedding anniversary cake.

After the supper, Manfield Packard showed pictures of their travels through the Bad lands and Castel in the West which were very interesting.

We are sorry to report that Minnie Morgan missed the supper because of illness. She is reported better at this writing.

We missed several faces that were unable to attend.

Mrs. Esther Davis had a real visiting day Sunday. She was in Breton Mills where she attended church. Then she called on her sister, Emily Pike for an hour. Norland was having the last day of Heritage Week, so Esther attended that. She saw the horse show and visited the school house. Then she drove to North Jay to see her sister, Martha Hines; then on to Canton Point to a niece and husband, Mr. and Mrs. Arthur Wilkins which completed the day.

Mr. and Mrs. Taisto Koskela went to Lake Saint Jean, Quebec this week end, returning Monday night on their anniversary trip. They went to the wild life zoo in that area. They reported the American animals were on the loose but lions, etc., were caged.

It's haying time but oh what weather! The farmers are becoming discouraged. It is hard drying hay with only one fair day at a time.

The Grange furnished dinner for the Senior Citizens at Bryant Pond Thursday, July 1.

Franklin Grange Youth Night was held July 5.

I had beet greens from the garden Wednesday, June 30. Things are growing quite well if it doesn't present us with a frost. It is cold enough tonight.

Mr. and Mrs. Richard Felt celebrated their 37th wedding anniversary on June 30.

Schools are closed in the area now. Time for a vacation.

Patsy Tibbetts came to the Willing Workers supper and visited her mother a little while.

Frank Knox and Dale Buck have finished work for Olive Davis this week.

Mr. and Mrs. Tom Schroer and

Greenwood City

— Mrs. Collette Morgan, Corres. —

This is July 4, 1982, and a good time to think about our heritage, a time to remember our forefathers so memory shall not fade, think of their gallant courage from which our history was made.

George Washington, soldier and statesman, high-poised example of great duties accomplished.

Heritage, what is it? "The nobility of purpose which guided our founding fathers when they pledged their lives, their fortunes, their sacred honor to the support of a nation then unborn."

The Bill of Rights, The Declaration of Independence, Patriotic American Songs.

"Sing, America, Sing"—Take up your harp, Americans, This is the hour for song.—by Gail Brook-Burket.

"America"—Written by Samuel Francis Smith while at Andover Academy not knowing at the time that the tune was the British "God Save the King".

"America the Beautiful" written by a young English teacher from Wellesley College, Katharine Lee Bates, inspired by a visit, in 1893, to Pikes Peak, where the magnificent view of the wide country stretched out before her. During the 1920's the poem became linked with the familiar melody.

"The Star Spangled Banner," every American knows, our national anthem, written by Francis Scott Key.

"Yankee"—The words were set to an old European tune by a British doctor. By the time of the Revolutionary War, Yankee Doodle was a favorite of both British and American troops, although at first it was intended to mock the rustic ways of the Yankee soldiers. The British marched to it at Lexington and the Americans at Saratoga.

This and much more should be accepted with gratitude as an inheritance, which was bequeathed to us by life and death.

So out of the fun and picnics, and the parades and fireworks, when watching a shower of green and gold stars burst in the sky and drift down, we should also remember the lines of Abba Hillel Silver.

"And out of the bounty of earth and the labor of men,
Out of the longing of hearts and the prayer of souls,
Out of the memory of ages and hopes of the world,
God fashioned a nation in love, blessed it with
Purpose sublime . . . and called it America!"

May we give our best for ourselves and others, till all men learn to live as brothers.

Most camps here were occupied by the owners and their families over the holiday week end.

The four Hayes "boys" and their families, their mother, Doris, her sisters and families, were at the cottage of Ardell and Betty Hayes on North Pond, Norway, on July 4.

Mr. and Mrs. Russell Brennan of Seekonk, Mass., are spending a few weeks at their camp here.

Doris Hayes leaves this morning (Tuesday), to attend the wedding of her granddaughter, Joy, in Kentucky.

We enjoyed a surprise visit from Mr. and Mrs. Edward Wiersberg, Canton, Mass., the first of the week.

On Sunday we were in South Paris to see Carroll Notlage. He flies to Texas with his daughter, Laurene French, on Thursday to stay until next spring.

I went to Hiram to pick strawberries on Wednesday.

HEALTH CENTER RECEIVES A FACE LIFT

Members of the Hurricane Island Outward Bound School enthusiastically beautified the Bethel Area Health Center building and grounds.

These young people raked, garden, clipped, mowed, washed paint, cleaned windows and did general yard work in response to the portion of their program which involves service to the community. The program also involves hiking over 60 miles of the Appalachian trail, three days of rock climbing, five days of canoeing and three days of solo (a form of contemplation and introspection).

Many thanks to Groan & McGurn for donating the flowers that have now been planted and to Bob

Education with a career design for a new elementary school in Woodstock, to be located on Rumford Avenue, one mile north of Route 26. This presentation culminates nearly two years of deliberation by the Board of Directors of S.A.D. 44.

For the past two years, one of the goals of the Board has been to reach a decision regarding the improvement of the elementary facilities in the district. As part of the review, the Board submitted an application to the State Department in the Spring of 1981, which resulted in an assessment of the buildings in the district. The state's report indicated that the Woodstock school would, in all likelihood, receive state funds for a replacement project. Following the State's report, the district contracted with an engineering firm, using matching Federal funds, to undertake a study to determine the feasibility of renovating the existing elementary buildings. This study also analyzed the long-term facility requirements of the school district, using population projections provided by UMO. This engineering study indicated that the cost of renovating the Woodstock school would be in excess of \$500,000.

Following the submission of this feasibility study to the Board, the Directors voted to pursue the development for a design concept for a new elementary school in Woodstock, and to bring this design to the voters for their approval. Since that decision was reached in late November, 1981, the Board created a Building Advisory Committee, comprised of citizens chosen by the Selectmen in each of the five towns of the School District, to complete a workbook outlining the educational specifications for the new school; selected a site for the new school; endorsed the educational specifications developed by the Building Advisory Committee; conducted two public hearings on the concept of the new elementary school; and, acted to approve the concept design developed by Phil

If the State Board of Education approves the concept design for a new elementary school in Woodstock, the public will vote on the construction project in a general referendum sometime before Nov. 14, 1982.

In the coming weeks, the Board of Directors will establish the date of the referendum; the amount of initial assessment for the project; the method for raising the funds; and, the timing of the assessments. As these crucial decisions are reached, an effort will be made to share the impact of these decisions with the public. Please make an effort to become familiar with the details surrounding this construction question in the coming weeks, and feel free to share your thoughts with Board members and administrators.

MAINE DESCENDANTS OF RICHARD KIMBALL (IPSWICH) HOLD JUNE REUNION

June 19 at Gray, Chairman Gordon Kimball and wife Bertha of the Richard Kimball Descendants welcomed Kimballs from Maine, also from New Hampshire and Massachusetts at the Congregational Parish House for the annual Reunion.

Mrs. Ellen Parady assisted with registering. The chairman and Co-Chairperson, Mrs. Jacqueline Kelleher, served doughnuts, coffee, and fancy breads.

Members of the National Kimball Family Genealogy Committee were on hand to help with lineage questions. They were Past President Gordon Kimball of Wolfeboro, N. H., and Mrs. Jeanette Kimball, Danville, N. H.

Other National officers present were: Albert Hall, president, Candia, N. H.; Richard Kimball, Education Fund Chairman, and wife, Amy, from Danville, N. H.; Newsletter Editor, Mrs. Judith Kimball and husband, George, from Kittery; Mrs. Joan Kimball, Wolfeboro, Haverhill.

Gerald Kimball, Gray, introduced members of his men's chorus in the afternoon and they gave an hour-long program of popular songs assisted by three ladies, offering instrumental music on piano, accordion and duets.

Chairman Gordon Kimball opened the business meeting by asking President National KFA Albert Hall to address the group, which he did, giving some brief history and introducing founder Elizabeth Mason Carter of Bethel, and then he gave the program of the upcoming 14th Reunion of the KFA scheduled for the week end of Aug. 13, 14 and 15 at Gov. Dunsmuir Academy, Byfield, Mass., for which flyers are already mailed to members nationwide and also in Canada.

The Reunion will open registering at the Academy noon, the 15th, and through that afternoon and Saturday, in accord with the theme of Reunion, "Genealogy" of the members of this committee will be available to aid with lineage questions. Friday evening they will go to Kimball Tavern, Bradford, for a dinner hosted by a Kimball ancestor (impersonation) and social hour.

Saturday a.m. members have the opportunity to exhibit their own genealogy charts, hobbies, crafts, and to sell them, which all encourages cousins mingling to get acquainted. Luncheon is at the Academy and the afternoon is the annual business meeting and election of officers, followed by a late p.m. President's Punch Party for retiring and incoming Presidents and then a dinner and evening entertainment. The reunion concludes with brunch Sunday following a service just for Kimball's in the Chapel; and it is expected that lay minister Herbert Kimball of Rochester, N. H., will give the address as he did at the 6th Reunion at Ipswich.

Maine Kimball's re-elected Gordon and Jacqueline Kelleher as Co-Chairmen for the coming year. (Mrs. Kelleher is also National 2nd Vice President.) Chairman Gordon Kimball announced that an invitation had been received from Elizabeth Mason Carter and Stanley E. Howe, Bethel members, to hold the 1983 Kimball Reunion for Maine members at the Moses Mason House Museum of which Mr. Howe is Curator and Director of the Historical Society which owns it. After discussion, the invitation was accepted and the reunion will be on the third Saturday of June 1983 with Maine Chairmen in charge of the program and Mrs. Carter and Mr. Howe handling publicity and arrangements at Bethel.

Gordon Kimball stated that National KFA allots \$50 from any state's membership fees, if they hold a State reunion, to aid with their expenses. Prizes were awarded the youngest present, Miss Ellen Kimble, Falmouth; oldest, Mrs. Mildred Kimball, Gray, and one with most children and grandchildren, Mrs. Jeanette Kimball, Danville, N. H. Those attending the Maine Reunion came from: Yarmouth, South Portland, Falmouth, Wells, Moody Beach, York, Kittery, South Paris, Norway, Camden and Bethel as well as Gray, and also from Wolfeboro, Candia and Danville, N. MEETING HOUSE SOC. HELD ANNUAL MEETING JUNE 2

President Stanley Howe called the annual meeting of the Middle Interval Meeting House Society for June 2 and a good representation of the membership attended.

President Howe called members attention to the progress made by Dennis Wheeler on the interior. Shortly the plaster work will be completed and then painting and floor work will follow.

The secretary's report was read by Geraldine Howe, and treasurer's in absence of the treasurer, Augustus Carter by Pres. Howe. There is sufficient money to complete work begun, but members and finance committee are encouraged to go after more donations as furnishings, light fixtures etc., are needed.

Mrs. Raymond Buck announced that there will be a membership drive this fall, and the Harry Kuzys will have a booth at Mollycodd Day to attract and interest members.

The members are pleased that despite the work being incomplete, there has been use of the Meeting House. Since spring 1981 there have been two Memorial Services, one wedding, a concert, and an Episcopalian autumn service. Pres. Howe reminded that anyone may apply to him or the other officers to use the building. Permission will be granted provided already established rules are complied with.

The president conducted a discussion of the latest communication from IRS on the Society application for exemption from income tax. After members expressed their views, it was voted to proceed with the application.

On June 18, since this meeting President Howe was notified that the Society's application has been approved, and so is exempted from Federal income tax under section 501(c)(3) of the IRS code. As the Society is not a private foundation it is subject to excise taxes under Chapter 42 of the code.

Donors may deduct contributions to the Society as provided under Section 170 of the code. Bequests, legacies, devises, transfers or gifts are deductible for Federal estate and gift purposes if they meet applicable provisions of sections of the code. Anyone wishing to donate or bequeath gifts

Christine Hunt, Deanna Hutchinson, Marybeth Hutchinson, Kelly Jordan, Jana Moffett, Donna Myers, Veleada Nixon, Kelly Osgood, Teresa Roberts, Mindy Robinson, Deborah Wheeler and Sarah Williamson. MANPOWER IN MEDICINE

According to the 1981 report by the Maine Health Systems Agency, the State of Maine has been trying since at least 1975 to determine whether or not it has enough primary care physicians. It was in this year that the committee to improve medical manpower and education was established. Various formulas have been used and various conclusions reached, all of them stating that Maine does need more physicians.

The only rational planning for physicians manpower that has been applied in Maine has been through the United States National Health Service Corps. The N. H. S. C. physicians have been assigned to health centers if the geographic criteria has been met and if a request for assignment has been made by the community. The community health center is probably the closest that Maine comes to the ideal model of comprehensive primary care.

As cited in the 1981 Maine Health Systems Agency report, the Bethel Area Health Center, is an example of such comprehensive service.

The Bethel Area Health Center provides a wide range of primary medical services including screening and prevention. The center also works with area business and industry to address worksite opportunities in prevention and treatment. Contracts with public and private school systems bring direct care to students and consultation opportunities to their respective faculties. Other services offered by the center are Child Health Conference, contracts with medical specialists for patients who require medical referral, Western Older Citizens Council elderly services, and coordination of services with the Androscoggin home Health Agency.

Studies have indicated that many people in rural communities with Health Center services available

ME./VT.'S PERCENTAGE FOR FISHABLE/SWIMMABLE WATERS HIGHEST IN N. E.

Maine and Vermont have the highest percentage of fishable/swimmable waters in New England according to a report from the U. S. Environmental Protection Agency.

Paul G. Keough, Senior Policy Advisor at the Regional Office of the EPA, explained that both states report that 72% of their major waterways are now suitable for fishing and swimming.

Approximately 1,718 miles of Maine's 2,382 major river miles and 635 miles of Vermont's 879 major miles are suitable for fishing and swimming.

"It is important to note that only major streams are assessed in the clean water report. If smaller upland streams were considered the swimmable percentage would be much higher," Mr. Keough explained.

The report shows that the percentage of swimmable waters in Vermont has improved by 11% in the past four years while Maine recorded a 5% improvement.

When all six states are assessed the report shows that 67% of the Region's major streams are meeting the fishable standard. This represents an overall improvement of 11% since 1976.

A breakdown of the waters in other New England states shows: Rhode Island, 66% swimmable; Connecticut, 65%; New Hampshire, 53%; and Massachusetts, 45%.

"We are quite pleased at the improvement in our waterways.

are receiving services that perhaps would not be available in wealthier and more urbanized Maine communities.

These health centers are major forces for better health in rural Maine. The centers are not perfect nor are they fully developed but they do hold promise for the future.

laws. But the facts prove that this argument is wrong.

Women who retire at 65 receive half as much as retired men receive from Social Security and other pensions. Retired women receive an average of \$3,759 a year from Social Security, while men receive an average of \$6,450.

In Maine, women are paid 59 cents for every dollar a man earns. Professions which are dominated by women tend to pay less than other professions.

It is true that many federal laws contain certain provisions that are intended to protect women against discrimination on the basis of sex. But these are individual laws, dealing with individual situations that may easily be repealed. They do not guarantee women permanent protection against discrimination.

Many states, including Maine, have repealed all language in state laws that discriminate against women. But these state laws do not cover equity in Social Security or pension benefits.

The addition of an Equal Rights Amendment to our Constitution is an economic issue, and a humanitarian issue—one that appeals to our nation's basic principles of freedom and equality for all.

I am disturbed over the failure to ratify ERA this year, because it means that a vast population of women, many of them retired women, will continue to be economic prisoners because of their sex. The fight for the Equal Rights Amendment is not over, but the intervening years before 38 states can ratify the new Equal Rights Amendment will be difficult for elderly women who have been unfairly repressed, and for women who provide the sole support for their families.

There is no choice but to begin again.

HEALTH CENTER APPOINTS PODIATRIST TO STAFF

The Bethel Area Health Center is pleased to announce the appointment of Dr. David J. Johns, a podiatrist from Berlin, N. H. Dr. Johns will now be coming to the Center two days a month. His hours will be from 10 to 2 by appointment only, beginning July 15. He has been practicing in Berlin since 1978, also being licensed in Maine. The Health Center is fortunate to have him come to Bethel. For appointment, call Bethel Area Health Center, 824-2193.

We expected that progress to continue in the coming years. Our estimates, are that by the end of 1983, 82% of New England's major waterways will be suitable for swimming," Mr. Keough continued.

In Vermont, the 1983 figure will be 95%, the highest in the Region. Maine's fishable/swimmable rate is expected to climb to 88% by next year.

"The principal reason for such great progress has been the building of municipal sewage treatment plants. Cities, towns and industries that used to discharge directly into rivers are now tied into treatment systems. As a result our rivers are becoming much less polluted. This progress has not come cheap, however, EPA since the Clean Water Act of 1972 has allotted \$2.3 billion to the New England states to construct treatment plants. And that represents only 75% of the cost of the treatment works. Our states and local communities have also invested hundreds of millions of dollars. And, the private sector has also expended a good deal of money on this effort," Mr. Keough added.

A break down of the \$2.3 billion allotted to the Region shows that Maine's share of the funds amounted to \$262 million and Vermont's share \$112 million.

FROM THE TOWN OFFICE

continued from Page One
the authority to regulate those matters, may enact the ordinance following public hearings without a Town Meeting. The Planning Board expects to present the draft ordinance to the Board of Selectmen in August.

In related action, the Planning Board is completing necessary preparatory work that will be used in negotiating with cable TV companies. Areas that will have to be regulated include the types of programming desired by the majority of patrons, customer costs to be incurred for running cable, monthly programming costs, and level of services such as responsiveness to trouble calls. The Planning Board, or another board that might be established for this purpose, would use this data to make the best business bargain for the Town with a cable TV vendor within the framework of the ordinance. The prognosis is that the ground work will be in place for face-to-face negotiations, with cable TV companies to start in September.

The Board of Selectmen met in special session Tuesday evening, July 6, to work on police issues. For various personal reasons, all three of the Town's special police officers have withdrawn from service since May. Since special police officers are double hatted, the number of constables available for service is similarly decreased. There is not in the Oxford County area a reservoir of replacement personnel who are trained and/or experienced in the complexities of special police work that are available to be hired by the Town. As a result, police coverage rendered by Police Chief Bob Stearns and Constable Arnie Brown is actively supplemented by increased Bethel patrols by Police-trained County Sheriff Deputies and, when called upon, State Troopers. The Board decided to move first on the immediate personnel shortage problem by commencing a selection process that would lead to appointment of additional responsible constables. These constables would be asked to serve on a patrol three or four times a month through the summer and fall or on special occasions such as Mollycodd Day. The Manager was also directed to prepare a study of long range police protection alternatives for presentation to the Board in September.

The Board of Selectmen will meet at 7 p. m., Monday, July 19, in the meeting room of the Bethel Savings Bank.
